

AMBIKA LAKSHMI KATTA

CYBERSECURITY UNDERGRADUATE | SECURITY ANALYSIS | NETWORK & CLOUD SECURITY

ambikalakshmi999@gmail.com | 9392510846 | LinkedIn: [Ambika Lakshmi Katta](#) | GitHub: [ambikalakshmi999-rgb](#)

PROFESSIONAL SUMMARY

B.Tech Cyber Security undergraduate with hands-on internship and lab exposure across security analysis, vulnerability assessment, network monitoring, web application security, and AWS cloud environments. Experienced with Wireshark and Kali Linux for network traffic and security analysis; Nessus/OpenVAS for vulnerability scanning; and AWS EC2, S3, IAM, and VPC for foundational cloud security and access management. Knowledge of TCP/IP, DNS, HTTP/HTTPS, SSH, OWASP Top 10, authentication, authorization, MFA, cryptography, Linux, Python, SQL, and security monitoring. Seeking entry-level Cybersecurity Analyst, SOC, Network Security, or Cloud Security opportunities.

CORE TECHNICAL SKILLS

Cybersecurity: Security Analysis, Vulnerability Assessment, Threat Analysis, Network Security, Security Monitoring, Security Controls, Access Control, OWASP Top 10, Authentication & Authorization, MFA, Cryptography Fundamentals, Basic Penetration Testing, Patch Management, Remediation

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, SSH, FTP, VPN, OSI Model, Network Traffic Analysis, Packet Analysis, Routing

Cloud Security: AWS EC2, AWS S3, AWS IAM, AWS VPC, Cloud Security, User Access Management, Cloud Resource Management

Security Tools: Wireshark, Nmap, Burp Suite, Kali Linux, Nessus/OpenVAS

Programming & Databases: Python, C, SQL, PowerShell, HTML, CSS, JavaScript, MySQL, PostgreSQL

Systems & Development: Linux, Windows, Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Cyber Security Intern — APP Genesis Soft Solutions Pvt. Ltd. | 05 May 2026 – 30 Jun 2026

- Analyzed foundational cybersecurity concepts including common threats, attack vectors, security controls, confidentiality, integrity, and availability.
- Performed basic vulnerability assessment and penetration-testing exercises, including vulnerability scanning with Nessus/OpenVAS and introductory remediation concepts.
- Used Wireshark and Kali Linux for network traffic analysis and network monitoring, examining communication flows to identify potential security concerns.
- Studied web application security through OWASP Top 10, authentication, authorization, MFA, cryptography, patch management, and remediation activities.

AWS with AI Intern — APP Genesis Soft Solutions Pvt. Ltd. | 05 May 2026 – 30 Jun 2026

- Worked with AWS EC2, S3, IAM, and VPC while building foundational understanding of cloud resource management.
- Configured basic cloud resources and user access management with attention to cloud security and resource-management practices.
- Explored AI and Machine Learning concepts on AWS cloud platforms and their relationship to cloud-based workloads.

CYBERSECURITY & TECHNICAL PROJECTS

Network Traffic Analysis & Security Monitoring | *Wireshark, TCP/IP, HTTP, Linux*

- Analyzed captured network traffic to understand protocols, endpoints, ports, source/destination addressing, and communication flows.
- Applied packet-level inspection concepts to recognize network activity and build practical understanding of security monitoring.

Vulnerability Assessment & Web Security Lab | *Kali Linux, Nessus/OpenVAS, OWASP Top 10*

- Practiced vulnerability scanning and reviewed vulnerability categories, mitigation concepts, patch management, and remediation workflows.
- Studied common web application risks through OWASP Top 10 and explored identity controls including authentication, authorization, and MFA.

Precision Farming – Crop Recommendation System | *Python, SQL*

- Developed a recommendation-based application using environmental and soil-related inputs to support crop selection.
- Implemented data processing and recommendation logic using Python and SQL.

EDUCATION

Swarnandhra College of Engineering & Technology, Narsapur, Andhra Pradesh | *B.Tech in Cyber Security* | Expected 2027

Relevant Coursework: Computer Networks, Operating Systems, Cybersecurity, Database Management Systems, Programming, Digital Forensics

Aditya Junior College, Palakol, Andhra Pradesh | *Higher Secondary Education (MPC)* | 63.5% | 2021–2023

Sri Chaitanya Techno School | *Secondary School Education* | 72.5% | 2021

CERTIFICATIONS & WORKSHOPS

- Cyber Security — Project completion, Embrizon Technologies.
- Integrating AI in Web & Application Development — Practical workshop on using Gen-AI tools for real-time application development, Mentorly.
- Cyber Security — Hands-on workshop on cybersecurity tools, Synthoquest Pvt. Limited.

LEADERSHIP & ACTIVITIES

National Service Scheme (NSS) Volunteer | 2023–2027

- Participated in community development and awareness programs and collaborated with volunteers on social-service initiatives.
